McCOY COULTER ASSEMBLY

Issue Date 1st July 2007 - replaces all previous updates

McCoy Coulter Assembly

The McCoy Coulter assembly (pictured bolted to display unit) can be easily adapted to most common cultivators. It is supplied complete with your choice of 18" coulters and U bolts to suit the machine of application, and the coulters can be set to centres ranging from 7" to 14".

- ➔ Supplied as an unassembled unit, with all componenets required for use, ready to assemble.
- ➔ Your choice of 18" coulters - Plain, 8 Waves, 12 Waves, or 24 Waves - all with HT stud pattern.
- ➔ Sealed hub bearings and upright pivot bearings.
- ➔ Downward cutting force easily adjusted manually using galvanised chain links.
- ➔ Coulters set to TOE-IN at 1.5 degrees to effect self cleaning and self sharpening.
- ➔ Hubs axles may be ordered with coulter centres ranging from 7" to 14".

PART NUMBER	RETAIL PRICE	
CAOP	\$679.00	Coulter assembly, with coulters, ready to assemble.
